DONI WICAKSONO
Frontend Engineer

doniwicaksonox@gmail.com | doni.zone.id | linkedin.com/in/doniwicaksono

SUMMARY

Recent Software Engineering graduate with a specialization in full-stack development using Next.js and React. Proven ability to deliver high-quality applications, demonstrated by conducting end-to-end testing with Playwright to ensure full functionality across various browsers and devices. Skilled in Linux environments and eager to apply strong skills in intuitive UI design to a challenging development role.

EDUCATION

Bachelor of Software Engineering   **Sep 2021 - Aug 2025**
Telkom University   Purwokerto
GPA: 3.89/4.00
Relevant Coursework: Web Development, Data Structures, Algorithms, Databases, Software Testing, Software Quality Assurance, Software Requirements Engineering

EXPERIENCE

Web Design Intern   **Mar 2025 - May 2025**
PT Malaka Teknologi Indonesia   Jakarta
- Built web pages from Figma prototypes using Elementor, ensuring a seamless user experience
- Designed and built a complete landing page for the company, adding key sections like pricing tables and testimonials to increase user engagement and drive conversions
- Redesigned a government site homepage for easier public access to key information

PROJECTS

MindEase | GitHub⧉ | Live Demo⧉   **Dec 2024**
- Used Next.js for server-side rendering and React for building user interfaces, ensuring a seamless and responsive user experience
- Utilized shadcn/ui for styling components, achieving a visually appealing and consistent design across different devices and browsers
- Conducted end-to-end testing using Playwright, significantly improving application stability and minimizing user-reported issues

snarky-discord-bot | GitHub⧉   **Dec 2024**
- Integrated AI chatbot based on Llama-3.1-8B-Instruct model
- Configured GitHub Actions to handle automated bot execution with secure environment variables
- Implemented core bot functionality using Python

Pahe | GitHub⧉ | Live Demo⧉   **Jun 2024**
- Implemented responsive web design with Flexbox using Tailwind CSS utility classes
- Employed advanced library to achieve smooth animations and transitions
- Utilized Vite as the build tool for a faster and more efficient development experience

Playpal | GitHub⧉ | Live Demo⧉   **Dec 2023**
- Consumed RESTful APIs to manage product catalogs, process orders, and handle user data on the client-side
- Built a dynamic user dashboard with features including secure authentication, account settings, and order history, creating a seamless user journey
- Employed version control with Git and collaborated with team using GitHub

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, HTML, CSS
- **Technologies:** Next.js, React, shadcn/ui, Tailwind CSS, Astro, Vite
- **Testing:** Playwright

- **Services:** Firebase, Supabase
- **Design:** Figma, Balsamiq
- **Tools:** Git, VS Code
- **Others:** Linux

CERTIFICATIONS

English Proficiency Test | Details ↗   **Mar 2025**
Telkom University Language Center
- Achieved B1 English level

Full-stack Web Development | Details ↗   **Aug 2023 - Dec 2023**
MSIB x LearningX
- Achieved very good grade
- Named as one of the top 5 students
